

# Annual Silent Yoga and Meditation Retreat

**May 3-10**

**Join us for 2, 3, 5 or 7 days**

**Sugar Ridge Retreat Centre, Wyebridge, Ontario**

We use Eastern traditions to guide us deeper into our own awareness, offering a mindful, spiritual process for healing and evolution.

Begin spring with a deep sense of renewal we can experience in extended silence. Maybe find inspiration in the freshness and newness of the season, and ride the waves of peace that the woods have to offer. We sit in

our own silence, within sacred community, among others of like mind and intention.

In the group we are silently encouraging each other forward in our healing and evolution.

Through extended time in silence we not only let the noise of our busy lives fall away, but we soon experience the quieting our mental chatter. As we find moments of true stillness, we begin to witness and get behind the stories and agendas of our fearful mind. Our inner journey provides insight, wisdom, and even release. We observe and can then let go of negative chatter and the painful stories we tell ourselves.

Bathe in the collective energy offered by the teachers and generated by this sacred community, engulfing the body/ mind in healing consciousness.

Meditations will be led by Toni with an offering of healing energy to bring you into your fullest potential. Contemplations and reflections help guide you on your journey inward. When we sit in meditative spaces, our intuitive self takes inspirational words and ideas to the

Michelle will lead you through your Hatha postures and breath work during the day, facilitating a practice that will assist in circulating the energies and releasing the tensions of the body.

In the evening Michelle will guide you with gentle Yin, Restorative asanas, and Yoga Nidra to direct you deeper into surrender. All practices assist in calming the sympathetic nervous system allowing our being to process and let go.

As the mind releases, the body releases, and tensions and stressors, narratives and histories that we hold in our body are often allowed to fall away. Allow the quiet and the routine to take you to new places or
