

## Wedding Packages

I believe that your wedding day is one of the most memorable days in your life. That is why I specialize in capturing it so that the images reflect all the joy, the formal moments, the occasional tears, and the funny and candid times that make it truly special.

I consider it a privilege to be part of your special day and will devote the time to meet your needs and desires. Below I am listing several packages for your review. Regardless of what package you choose I will schedule a meeting, at least a week before the event, to plan the flow for the wedding day. This time is very important to insure that I know your preferences and to agree on the images that "must" be captured as well as the style you are looking for. My experience has shown me that this is a very important step for a stress free wedding day and to assure your pictures will reflect your requirements.

### **Regardless of the package you select it will include these general items:**

- Choice of color, B&W for any image.
- All necessary meetings prior to and after the ceremony.
- Via the website you will be able to share all the proofs with friends and family for 60 days. This is especially meaningful for those who where not able to attend the event. (\$150 Value)
- Website visitors will be able to purchase prints of posted images.
- Professional post processing of prints including image enhancing or retouching as requested. (\$350 Value)
