### What to wear?

- ~ Avoid wearing busy patterns, plaids, stripes, neon colors: they tend to distract the focus away from you. Darker shades of color work best, especially outdoors, select warm, earthy tones.
- ~ Long sleeves photograph better than short sleeves or sleeveless.
- ~ Girls, wear your usual makeup and bring it along, just in case. Glossy lips are always flattering and have freshly polished, manicured nails.
- ~ Guys, a fresh shave is a must. Avoid the "just-cut" look by having your hair cut a week or so before your session.
