Included in Wedding Packages

In an effort to reduce waste and protect the environment I do not offer low-res image discs. After your wedding you will receive a link to a private gallery with your screen ready image files which you will be able to download straight, to the device of your choice, at no additional charge. Hi-res, print ready image files (digital negatives) will be available for **\$25/image** file with all rights released to you upon purchase.

The entire gallery of your wedding day images can be purchased in hi-res, print ready format for **\$700**.

I also offer a full range of print options, all produced through professional labs.

- All prints purchased through me come with a 100% satisfaction guarantee and a free copy of the hi-res, print ready image file.

- Wedding albums are offered in a wide array of styles to suit any taste and budget. Prices vary depending on style and various options chosen but range between **\$400-\$2000**.

I am very happy to discuss, one on one, your desires and detailed expectations for an album that best captures the memories of your wedding day.
