

## WEDDING IS MORE THAN A STRESSED HOUR IN A STUDIO

Did you ever dream about your special day, captured in hundreds of pictures ? Would you like to cross the borders of studio, capture your happiness in wonderful surroundings of nature ? Or maybe you are crazy enough to ride a motorbike in your white dress ?

We are wedding photojournalists - first in Norway, members of both AG/WPJA and WPJA (Wedding Photojournalist Association) gathering the best wedding photojournalists in the world.

A whole day our cameras will be with you. One following the bride, the other one following the groom.

Result ? 400 pictures of real moments, pure emotions and true beauty caught by sensitive ``eye`` of our cameras.

THE ARTISTIC GUILD OF WEDDING PHOTOJOURNALIST ASSOCIATION

## WEDDING PHOTOJOURNALIST

### A wedding

**photojournalist** is a person who takes photographs during a wedding using an alternative approach where images are captured spontaneously to emphasize moments and emotion. Much like photojournalists for the media, wedding photojournalists present the story of the day through their photographs. A wedding photojournalist typically shoots images quickly using available light or on-camera flash rather than using traditional, formal posing techniques and studio lights. The phrase wedding photojournalist has been in vogue for at least 10 years and has now become almost synonymous with normal wedding photography.

Sokrates` Workshop cover your day with a female-photographer who follows the bride, and a male-photographer to follow the groom.
