Newborns

Your Experience

Pre-Session Consultation

These are provided to all prospective clients. They are typically done in-person, at your home, if you live 20 miles away or less one way from the studio. It will be over the phone and through email if you live more than 20 miles away. We will talk about the images you would love to have, plan your wardrobe, and explore the options for your finished products. If you decide to book, you will sign your contract, pay your session fee, and schedule your next 2 sessions (the photo session and viewing session) at this time.

Your Photography Session

Newborn sessions are done in your home. They are very relaxed and typically last between 3-4 hours, allowing for plenty of breaks. Parents are encouraged to take a little time out for themselves to relax and read a book or even take a nap while I work my baby magic! I ask that your home be kept very warm so your baby is comfortable. I will work slowly and patiently with your baby, gently moving from pose to pose, changing backdrops and settings along the way. I love photographing parents with their new babies, but it is entirely up to you whether you would like to be in some of the images or not. I ask that only the parents be present for this session. A Family session is the perfect time for everyone to be together.

In-Person Viewing & Ordering Session

This session is held in my studio 7-10 days following your photography session. You will see a slideshow projection of your 20 fully enhanced, final images and place your order for the products we talked about during your pre-session consultation. Anyone who is interested in seeing the images and purchasing products or is someone who is a deciding factor in which products are purchased is strongly encouraged to come to the ordering session. You have access to your images for 15 days following your ordering session and your

files are purged 60 days following your ordering session, so placing your order at that time is best.

How old should our newborn be for the session?

The best time to photograph newborns is between 6-10 days old because they are still very sleepy and generally easier to work with. I have photographed babies at 4-6 weeks and created gorgeous images, but those sessions often take a little longer.

What Do You Provide? What Do We Need to Bring?

I provide swaddling wraps, gorgeous blankets, backdrops, diaper covers, and several simple, beautiful headbands for little girls. Please have at hand anything else your little one might need, like diapers, wipes, pacifiers, and milk.

How to Pay and Payment Plans

You may pay with cash, check, or credit card. Payment plans are available, but you do receive a 5% discount on your total if you pay the full amount up front during your ordering session.

Book My Session!

Booking is easy! Your non-refundable \$195 session fee is required to hold your date, which can be rescheduled twice before forfeiting the fee. A no-show immediately forfeits the session fee, except in the case of an emergency. You can pay the session fee with cash, check, or credit card.

Thank you so much for your interest in Hannah Skye Photography -
I can't wait to ILLUMINATE YOUR LIFE!

XOXO
