Seniors

It's that time... Your little girl is a senior. You knew this day would come, but are you ever really ready for it? You are going to miss the noisy outbursts, tripping over the shoes in the door way, the messy room, the laughter of friends as they gather at your house, and just having her home every day.

You'll remember the first day she went to Kindergarten, you will remember how she cried the first time someone broke her heart, you will remember how excited she was to share her good news with you the first time she made the team, or got asked to her first big dance.

How will you remember this day? You will look back on this day and remember how much fun you had with your daughter. The portraits created during her Senior Session will seal this day forever. Each smile that is captured, each pose that shows her personality, and each outfit that she carefully chooses will help you to cherish this time forever.

How will you remember her senior year?

We don't just photograph the girls...

Boys senior portraits are just as important! Many times the guys don't want to be here, they aren't usually really into their senior portraits. But once they are here at our studio, and Dennis takes over... They have a lot of fun! When they leave and say, "that wasn't so bad", we know we have done our job, and Mom is going to be really happy!

The Yearbook Photo is only the beginning.

Parents— If your senior plays fall sports, schedule their appointment as early as possible in the summer! It can be very difficult to work around sports practices. And sometimes those football players shave their head! Yikes!
